PROFESSIONAL SUMMARY

Computer Science Engineering student passionate about building scalable, user-friendly web applications using Python, React, Django, FastAPI, and SQL databases.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3

Backend: Django, Flask, FastAPI, Node.js, Express.js

Frontend: React.js, Modern JavaScript, Responsive Web Design

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, npm

FEATURED PROJECTS

1. E-Commerce Website [MERN Stack - React, Node.js, Express, MongoDB]

- Built complete e-commerce solution with authentication, product catalog, cart, and checkout.
- Admin dashboard for inventory management and order tracking with responsive UI.

2. Voice Desk Assistant [Python, Voice Processing, Task Automation]

- Voice-driven desktop assistant executing system automation and user commands.
- Natural audio response generation and modular command processing pipeline.

3. Time Tracking & Productivity Analytics Chrome Extension [JavaScript, Chrome APIs]

- Tracks website usage duration and classifies activity into productive vs unproductive.
- Generates weekly visual productivity breakdowns and summary reports.

4. Student Course Management System [MySQL, Relational Database Design]

- Designed schema handling students, courses, enrollments, and academic transcripts.
- Leveraged SQL JOINS, subqueries, aggregate functions, stored procedures, and triggers.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Class of 2026
